

**General information:** Amimax 72 WP is a contact and systemic fungicide for the control of downy mildew on Roses; Early and Late Blight on Tomatoes and Potatoes. It has protective action with a good long-lasting effect of about 15 days.

**Mode of Action:** Amimax 72 WP has contact and systemic action.

**Direction for use:**

CROP	DISEASE	RATE
Roses	Downy mildew	2kg/ha
Potato and Tomato	Early and Late Blights	40gms/20L water

**Re-entry:** 1 hour.

**Pre-harvest interval:** 14 days for potato and tomatoes; for potato when Amimax 72WP is used upto 70 days after planting. Application timing and technique: Amimax 72 WP can be used during all vegetative periods of the crops 3 times. It is applied before or after infection, at 10 days intervals.

**Preparation of spray mixture:** Fill spray tank with half the amount of required water. Add required amount of Amimax 72 WP and fill the water to the required level. Agitate to ensure thorough mixing.

**Phytotoxicity:** Amimax 72 WP is not phytotoxic when used as recommended.

**Resistance management:** To prevent risk of developing pest resistance, it is recommended that Amimax 72 WP be alternated with products of different modes of action.

**HAZARDS/PRECAUTIONS**

**Handling:** Wear protective clothing: overalls, footwear, gloves, and face shield when preparing and using the product. Do not eat, drink or smoke while using the product. Do not get contact with skin, eyes and clothing. Do not apply upwind and stay out of the spray mist.

**After Work:** Wash hands before breaks and at the end of work. Change clothes and wash hands and face with soap and water thoroughly. Wash the spraying equipment and any contaminated clothing carefully.

**Storage:** Keep out of reach of children. Store in tightly closed original container in a cool dry and well ventilated place, under lock and key so that unauthorized persons do not have access. Keep away from food, drinks and animal feeds. Keep away from sunlight, excessive heat and open flame.

**Disposal:** Tightly rinse the pouch and puncture or perforate it. Dispose off in a landfill site approved for pesticides or bury away from water resources or return to stockist/distributor. The residue should be disposed off away from surface water to avoid contamination. Do not re-use the empty container for any other purpose.

**Pesticide Leakage and Spillage:** In event of heavy spillage, collect the contaminated soil layer and dispose in an authorized place away from water sources. Spilling in sand, soil or sawdust may collect small spillage. Contaminated absorbent material must be stored in marked waste bins prior to disposal in authorized landfill site. The pesticide store must be decontaminated by washing with a lot of water.

**Wildlife and Environmental Protection:** Amimax 72 WP is slightly toxic to fish and birds. Do not contaminate streams, rivers or waterways with the chemical or used containers.

**FIRST AID INSTRUCTIONS: Skin contact:** Wash off immediately with soap and plenty of water. **Eye contact:** Hold the eye open and rinse thoroughly with running water for 15 minutes. Seek medical advice. **If inhaled:** Remove the patient to fresh air and keep at rest. **If swallowed:** Give the patient 1-2 glasses of water. Do not induce vomiting. Move the patient fresh air, keep the patient at rest.

**TOXICOLOGICAL INFORMATION: Symptoms of poisoning:** Salivation and incoherence. **Antidote:** No known antidote. **Note to physician/Treatment:** Treat symptomatically and supportively.
